

MACHINE LEARNING FEATURE

Achronix Speedster7t FPGAs Suit AI/ML Apps

Achronix has now developed a new FPGA family that claims to meet the demands of artificial intelligence/machine learning (AI/ML) and high-bandwidth data acceleration applications.

AI DEVELOPMENT TOOLS & OPERATING SYSTEMS FEATURE

Where AIoT is Headed

The AIoT is an extension of edge computing, which is already prevalent in embedded markets, especially where vision and automation control are key.

PEOPLE & PRODUCTS PODCAST

Pre-Switch and AI-Powered Power Systems

Made up of the Pre-Drive3 controller board, Pre-Flex FPGA, and RPG gate driver board, the CleanWave inverter evaluation system uses Artificial Intelligence (AI) to constantly adjust the relative timing of elements within the switching system. [Tune in.](#)
