## How New-Age Technologies are Transforming Retail for the Better

The Internet of Things (IoT), cloud, and machine learning have changed traditional retail scenarios, giving rise to connected retail that provides organizations with innovative opportunities to collect and examine data, and ensure successful business. A recent study by McKinsey estimates that the IoT in the retail industry will have an economical impact ranging from approximately \$410 billion to \$1.2 trillion per year by 2025.

#### DEV KIT WEEKLY: HARDWARE REVIEW & RAFFLE

### DEV KIT WEEKLY: Infineon XENSIV Getting

## Started IoT Box

This week we'll be giving away 9 of the Infineon XENSIV Sensors Getting Started Box IoT Development Kits for free, thanks to our sponsor Digi Key. Despite the kit being packed with 13 different pieces, the star of the show is the XMC1100 Boot Kit for Arduino. Obviously by the name, the XMC1100 is compatible with Arduino shields. But, it features so much more.
