

EMBEDDED NETWORKING FEATURE

Ways to Address the Challenges of Designing Multi-Radio Hardware

Nowadays, the market is driven to design products with multiple RF protocols in a single box, known as Gateway. There are many and varying benefits of wireless connectivity which delivers better user experience and different protocols which offer complementary strengths.

DEV KIT WEEKLY: HARDWARE REVIEW & RAFFLE

Lattice Semiconductor CrossLink-NX Evaluation

Board

There's a ton going on in the world of FPGAs these days, and we didn't want to miss out on the fun. So we tapped our friends at Lattice, who sent us the CrossLink-NX evaluation board, a kit centered around the company's CrossLink-NX embedded vision and processing FPGAs that are built on top of the Lattice Nexus Platform.

Enter this week's raffle for your chance to win one for free.
