

EMBEDDED COMPUTING DESIGN PRODUCT OF THE WEEK

Product of the Week: Winmate M133K 13.3" Rugged Tablet PC

Winatec's industrial-grade M133K 13.3" Rugged Tablet PC is designed for operation in harsh outdoor environments. Powered by Intel's Kaby Lake Core i5-7200U processor that clocks in at 2.50 GHz (with turbo speeds up to 3.10 GHz) and Microsoft's Windows 10 IoT Enterprise operating system, M133K Rugged Tablet PCs can serve as a real-time, cloud connected control point in environments like a factory floor.

CYBERSECURITY FEATURE

The History and Evolution of DDoS Attacks

Distributed denial-of-service (DDoS) is one of the oldest and the most dynamically advancing vectors of cybercrime. Having taken root in the mid-

1990s as a rudimentary instrument for electronic vandalism, hacktivist protest, or script kiddies? ego boost, this phenomenon has matured and embraced more detrimental uses over the last 25 years.
